GEORGIA'S COTTON CROP WILL BE SHORT

Report of State Department of Agriculture.

ESTIMATED AT 71 PER CENT

Reduced Acreage, Labor Shortage, Bad Weather in April and Cold Days and Nights in May Have All Done Their Part to Reduce the Crop.

Atlanta, June 10—A very poor outlook for Georgia's cotton crop for the year 1907 is shown in the annual June report of the state department of agriculture, which was given out on Friday by Commissioner T. G. Hudson just before his departure for Jamestown.

An acreage of 94.5 per cent, compared to 104 last year, and the use of 92.6 per cent of the commercial fertilizers used last year are the primary causes of this outlook for a short crop. Then the fact that the average time of planting was 23 days later than last year and that 44 per cent of the crop had to be planted over, contributes to the rather gloomy average of condition and prospect of 71 per cent. The June report of last year showed 82 per cent.

The shortage of labor is declared by Commissioner Hudson to be the chief cause of the reduction in acreage. The bad weather in April is held responsible for the lateness of planting and the necessary replanting and the cold days and nights in May are assigned as the cause of the present poor condition of the crop.

This report was made by Commissioner Wright from over 750 letters from correspondents in practically every county in the state, from four to ten letters being received from each county.

The report also indicates only 39 per cent of a full peach crop and other fruits show a poor prospect. All the grains show a reduction in acreage and poorer conditions than last year, planting having been late nearly everywhere.

ENTIRE PARISH UNDER WATER.

Farmers Have Abandoned Farms for the Year in Flooded District.

New Orleans, La., June 10.—The first definite news from the flooded parish of Cameron, in the southwestern corner of Louisiana, arrived on Friday night. The inhabitants are safe, the dispatch says, but so deep are the floods that the sheriff is traveling in a gasoline launch and skiff over what were fertile cotton fields a few days ago in an effort to summon the June grand jury.

Nearly the entire parish, which contains about 1,500 square miles and about 3,000 inhabitants, has been under water. Ninety per cent of the cotton fields have been submerged from one to five feet deep.

Hundreds of people have been driven from their homes. A few high ridges standing above the water contain thousands of cattle, which will die of starvation unless the floods subside quickly. In the southern and eastern parts of the parish farmers have abandoned their places for the year, and will make a temporary living elsewhere. Rivers which caused the floods are still running miles wide and make the outlook serious.

Passenger Train Wrecked.

Royston, Ga., June 10—The southbound passenger train on the Elberton Air Line was wrecked this side of Bowersville at 12:20 p. m. Thursday, both coaches jumping the track and the tender also. Mail Clerk Wilson and Baggagemaster John Duncan, of Elberton, were both slightly injured. The cause of the wreck was track-spreading. The passengers were badly shaken up and terribly frightened. All trains have been delayed.

Earthquake Destroys Village.

Constantinople, June 1.—The village of Serrai, 50 miles from Van on the Turko-Persian frontier, was destroyed by an earthquake Friday. Slight shocks were felt here.

ORCHARD ADDS MORE CRIMES.

Relates How He Stole From Messmates and the Mines.

Boise, Ida., June 10—More crimes, both grand and small, were added to Orchard's Friday.

The Cripple Creek woman with whom he committed bigamy had three sons; Orchard stole high-grade ore from a messmate; he stole two cases of powder to make one of the bombs thrown into the Vindicator coal pile, and he told a lie. The defense endeavored in various ways to throw the shadow of doubt and improbability around the whole Vindicator story, and the alleged connection of W. F. Davis and William Easterly with the affair, and the circumstances under which Orchard testified he met Moyer and Haywood, and was paid for the commission of the crime, and to discredit Orchard's story that he was sent back to Cripple Creek with unlimited credit and orders to commit any act of violence that he cared to.

They confronted Orchard with Easterly and Owen Barnes, and paved the way for the contradiction by them of the story told by Orchard, and several times during the day paved the way for the controversion of his testimony on material points.

Orchard stood the test and strain very well, and held tenaciously to the story he related Thursday and the day before.

Suddenly toward the close of the day, the defense took up the trip Orchard made to southern Colorado with Moyer in the early part of 1905, and showed that Moyer feared to go south unguarded because "mine-owner official thugs" had beaten up innocent union men and had sent for Orchard to aid in protecting him.

It was agreed that they should carry cut-off shotguns and sit in the center of the railway car so that if they were attacked they could defend themselves.

Attorney Richardson, in questioning the witness, made it very clear that this had been a perfectly straight proposition, "free from any fake."

Counsel flared up several times during the day, and in the last passage at arms, Prosecutor Hawley said that Richardson told a falsehood when he intimated that Orchard was a fixed witness.

AERONAUT'S NARROW ESCAPE.

Santos Dumont Has an Uncomfortable Experience in Airship.

Paris, June 10—Santos Dumont had a narrow escape Saturday from sustaining serious injuries, if not losing his life.

Dumont started to try a new airship at daylight in a field at Bagatelles. The machine was mounted on bicycle wheels, and was speeding along at a rapid rate preparatory to making a flight, when a bungling workman tightened the guide rope, causing the tail of a small balloon above the aeroplane to sag, with the result that the propeller touched the ground and rebounded over the gas bag.

Finally M. Santos Dumont shut off the motor in time to prevent an explosion by the escaping gas.

The aeronaut was badly shaken up, but is not discouraged, and will try again. He hopes eventually to develop a speed of about 100 kilometers an hour.

Would Not Cheer Emperor.

St. Petersburg, June 10.—Military officials are eagerly discussing a sequel to the occurrence at Tsarskoe-Selo last week during the emperor's birthday fetes. A colonel of the Blue Hussars called to the squadron in parade for cheers for the emperor. The demand was received in dead silence. The colonel, who was a personal aide de camp to the emperor, has now been sentenced to 15 days' confinement in a fortress. The captain of the squadron has been sentenced to thirty days' confinement in a fortress.

AWFUL DELUGE OF WATER IN KENTUCKY

Cloudburst Claims Lives and Destroys Property.

A TOWN IS ALMOST WIPED OUT

Twenty Persons Are Missing, and the Known Dead Number Three—Were Crushed to Death or Drowned in Their Houses.

Louisville, Ky., June 10.—Twenty-one people are missing and the little village of Gradyville, in the southern part of the state, is almost totally destroyed as the result of a cloudburst, which sent a volume of water down upon the sleeping hamlet shortly after the midnight hour.

Three bodies had been recovered up to 10 o'clock. A partial list of the dead and missing follows:

Mr. and Mrs. Strong Hill and their family.

John Moore.

Mrs. Austin Wilmore.

Miss Wilmore.

Dr. L. C. Nell and family (he was a former state senator).

H. Moss and family of five.

The storm began about 10 o'clock in the night and increased in intensity until 12:30, when its height was reached.

The cloudburst turned Big creek into a torrent which quickly overflowed its banks and poured a great volume of water down upon Gradyville.

Nearly every house in the place was washed away, and those who met death were either drowned or crushed to death in their houses as they were torn from their foundations.

Columbia was telephoned for aid, and a large number of citizens left that place at once, but owing to the condition of the roads, it will require some time to make the trip.

Every stream in the vicinity is out of its banks.

The cloudburst did enormous damage besides the loss of life, all the bridges in the vicinity being washed away and thousands of acres of corn ruined.

Gradyville has a population of about 150, and is 18 miles from a railroad station.

MURDERED HIS MOTHER-IN-LAW

Karl Hau, When Hearing of Wife's Suicide, Confessed His Crime.

Karlsruhe, Germany, June 10—Karl Hau, who has been under arrest here for some time charged with the murder of his mother-in-law, Frau Molter, at Baden-Baden in November last, confessed Saturday that he is guilty of the crime.

Hau's confession followed the news that his wife had committed suicide by throwing herself in a lake in Switzerland, whither she had gone with the double affliction of the death of her mother and the arrest of her husband. Hau was told of her suicide, and this culminating tragedy apparently was too much for him, as he broke down and confessed that he was guilty of his wife's mother's death, a crime he had hitherto strenuously denied.

Hau's case has attracted much attention in Germany, England and the United States.

Although German by birth, he had lived for some time in Washington, where he was well known both socially and in the legal profession. Money troubles prompted Hau's crime.

Carried 550 Passengers.

Seattle, Wash., June 10.—The steamship Minnesota arrived in port Friday from the Orient with over 550 passengers aboard. General Booth, of the Salvation Army, made the round trip on the vessel. GREAT INTEREST IN DERRY CASE

Has Been Indicted for Embezzlement by Grand Jury.

Augusta, Ga., June 10.—Great interest is centering in the case of the state against E. R. Derry, former secretary of the defunct Augusta Real Estate and Building association, who has been indicted for embezzlement.

On account of his extreme age and ill health, it is not expected that he will be tried at this term, which begins Monday. However, a corollary case will in all likelihood be heard.

It is the suit of O. R. Eve, receiver, against R. E. Allen et al., directors of the accosiation, for the sum of $100,000, which, it is alleged, the officers permitted Derry to make away with and for which the stockholders contend they are liable. Some of the most noted legal talent of the bar will be represented on either side.

FOUND WITH SKULL CRUSHED.

Mysterious Murder Near Fayetteville, North Carolina.

Fayetteville, N. C., June 10—The body of Malcolm Morrison, of Hope Mills, N. C., who disappeared from home Tuesday, was found late Thursday in a clump of woods some distance back of No. 4 Mill.

At the coroner's inquest it developed that the skull behind the left ear was crushed in, the ear itself being terribly mutilated, and th left hand broken, the deceased having evidently placed that hand to his head in an effort to ward off the blows which were inflicted with a heavy, blunt instrument.

No clew to the murderer was discovered. Morrison was over eighty years of age. No motive can be assigned for the crime.

Battle is Given Life Sentence.

Macon, Ga., June 10.—Thomas Battle, a confederate veteran, 72 years old, was Friday sentenced to life imprisonment in the federal prison at Atlanta, Ga., for the murder of D. M. Berry, he having been declared guilty by a jury in the United States court. The crime was committed in the new postoffice building in course of construction here, which brought the case under the jurisdiction of the federal courts. Battle hit Berry with a piece of iron, knocking him off the building. He fell 100 feet to the ground. A motion for a new trial has been made.

Savannah, Ga., June 10.—Application for a charter was filed Friday for the Chatham Land and Hotel company, which proposes erecting a large tourist hotel in the southern section of the city. Williamson, J. A. G. Carson and Mills B. Lane, all of Savannah, and Charles E. Lewis, of Baltimore.

Columbus, Ga., June 10.—Clifford Nickolson, the 12-year-old son of Mrs. Emma Nickolson, a widow, was drowned in the Chattahoochee river near the southern limits of the city Thursday afternoon. He and other boys went in bathing and he drifted about fifty feet down the stream to a point where the current is 15 feet deep and quite swift. The boy was either overcome by cramp or lost his head.

Rushing Case Being Heard.

Augusta, Ga., June 10—The Rushing case occupied the attention of the city court Friday. The plaintiffs allege that Mrs. Rushing's body, after her demise in the city hospital, was maltreated by officials of the medical college against whom the suit was instituted for damages in the sum of $5,000. Two years ago the plaintiffs secured a verdict, but a new trial was ordered by the supreme court.

ILLINOIS SWEPT BY DESTRUCTIVE STORM

West York, on the Wabash, I... Scene of Fatal Cyclone.

MANY KILLED; MANY INJURED

The Cyclone Struck the Village About Dark and Raged for Several Minutes—Telegraph Wires Down, and News from Vicinity Meager.

Terre Haute, Ind., June 10—Meager details from West York, Ill., tell of a destructive cyclone which visited the village of York, on the Wabash river, southwest of this city, Friday night. The known dead:

Henry Rook, aged 50, found crushed to death in his garden.

Mrs. Malinda Pinkston, aged 45, found dead in the branches of a tree, some distance from her home.

Members of the families of the two victims were also more or less injured.

The number of injured is placed at thirty.

Owing to the wires being down and bridges washed away, communication with York is impossible. It was further stated that forty or fifty houses had been demolished.

The cyclone struck the village a little after the supper hour and raged for several minutes.

Reports from points south of here in Indiana say that the storm was severe and several inches of rain fell, doing big damage. At Farmersburg and Sullivan bridges and culverts were washed out and growing crops injured.

The electrical display was unusual, though no casualties are reported from this source.

Dispatches from various places in southern Indiana, Illinois and Kentucky, tell of severe storms which has caused some loss of life and the destruction of much property.

Early Saturday morning the town of New Minden, Ill., 25 miles southeast of St. Louis, was visited by a tornado which killed four people and injured a score of others.

At York, Ill., Friday night, 25 or 30 houses were destroyed, and a number of people are said to have been killed. Because of the loss of telegraph wires, exact details are not available at this time.

The storm is said to have been especially severe in southern Indiana, and at Farmersburg and Sullivan much damage was done by the wind and rain.

Duquoin, Ill., was also visited Friday night by the same storm that caused the destruction at York. A number of houses were blown down, but no lives were lost.

Will Lay Palatka Walks.

O. and Gerald Petre left Monday for Palatka, where they will remain for the next two or three days. The former has secured the contract for laying the granolithic sidewalks for the Gem City, and expects to begin work as soon as the necessary material can be gotten together, which will be probably by the end of the week.

Mr. Petre has given Gainesville an excellent system, which is demonstrative of the fact that he knows his business when it comes to paving. His friends congratulate him upon securing the Palatka contract in the face of several competitors, although he states that the contract price awarded there was considerable above what he has been paid in Gainesville.

DIXON TAKEN AWAY.

Man Wanted in Madison County for Violating a Contract.

Deputy Sheriff Horton of Madison county has taken back to Madison a negro by the name of Henry Dixon, who was arrested near Hines, in the West End, a few days ago, by Deputy Sheriff Osteen, the negro having been charged with violating a contract.

This is presumably a labor contract, and there seems to be a question of authority in the matter of ordering an arrest of Dixon for the alleged violation, as the conditions may border on a state of what is defined as peonage. However, the arrest has been made according to instructions from the authorities of Madison county, and the prisoner has been returned to the seat of his alleged "crime."

The officers of Alachua county have had nothing to do with this case, further than to carry out the instructions of the authorities of Madison county. At the time of arrest it was said that the officers here were not even aware of the charges against the man.

Dixon has been working for some time in the vicinity of Hines.

To Our Friends and Patrons.

The closing of our banking department is now fixed for the 5th of July. This will be immediately succeeded by The Dutton Bank, a State institution organized by and to be conducted and managed by some of the most reliable and conservative men of the city and vicinity.

All deposits in the bank of H. F. Dutton & Co. will be transferred to the new bank, unless otherwise directed by the depositors, and business will continue without change or interruption of any kind. The new bank will forward receipts and all necessary papers to the depositors.

Parties holding time certificates of deposit can have them redeemed at once, with interest, or can hold them until their maturity, to suit the wishes or convenience of the holder. The new bank will issue certificates with like conditions if parties so desire.

We bespeak for our successors the same liberal patronage that we have received. They are men so well known in this vicinity that they will have already secured the confidence of others as they have of ourselves. They ask for your patronage, and will return in favors as liberal as a conservative method of doing business will permit. If our old depositors, who have been with us so many years, will extend to them the same confidence, favors and patronage that they have so liberally given us, they will add to the many obligations under which they have already placed us.

H. F. Dutton & Co. will handle cotton (bales of cotton) as usual at the old stand. Very sincerely,

H. F. DUTTON & CO.

CORNERSTONE LAID.

Roosevelt Speaks at Dedication of Washington's Masonic Temple.

Washington, June 10.—President Roosevelt delivered an addrss at the laying of the cornerstone of the new Masonic Temple in this city Saturday afternoon. There also were address by J. H. Small and the president of the Masonic Temple association, Mr. Matthew Trimble, Henry, L. West, of the District of Columbia, and Jas. D. Richardson, the sovereign grand commander of the Ancient and Accepted Scottish Rite of Free Masonry of the southern jurisdiction.

An interesting feature was the fact that the gavel and the trowel used in the ceremony were the same as those used by President Washington when the cornerstone of the United States capitol was laid September 18, 1793.

For a long time the Masons of Washington have been looking forward to the construction of a new temple the initial steps having been taken ten years ago. The classic style of architecture is to be employed in the construction of the new building. The structure will be six stories high, with the first story about 30 feet in height.

TIRED AND SICK YET MUST WORK

MRS. AUG. LYON

"Man may work from sun to sun but woman's work is never done."

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless heeded, are soon followed by the worst forms of Female Complaints.

Lydia E. Pinkham's Vegetable Compound

keeps the feminine organism ina strong and healthy condition. It cures Inflammation, Ulceration, displacements, and organic troubles. In preparing for child-birth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon, of East Earl, Pa., writes:—Dear Mrs. Pinkham:—"For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of back and sides, I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly."

Mrs. Pinkham's Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

A relief train was made up, and the injured taken to a hospital in Pittsburg.

The smoker received the full force of the collision and was almost filled with passengers. It was in this car that the two men were killed.

Mr. Richardson left a note saying:

"To whom it may concern: This action has been inevitable since last November."

Baby Girl Had Rash Behind Ears—Nothing Would Drive It Away—It Spread and Grew Worse Under Specialist's Care—Tried Everything Without Avail.

CUTICURA REMEDIES EFFECTED PERFECT CURE

"When my daughter was a baby she had a breaking out behind the ears. The doctor said that she would outgrow it, and it did get somewhat better until she was about fifteen years old, and after that we could get nothing that would drive it away. She was always applying something in the way of salves. It troubled her behind the knees, opposite the elbows, back of the neck and ears, under the chin, and then it got on the face. That was about three years ago. As we had tried everything that we could hear of without help she took treatment with a specialist and seemed to get worse all the time. We were then advised to try the Cuticura Remedies, and now I don't see any breaking out, and we are well pleased with the results, and I will cheerfully recommend the Cuticura Remedies to all that may need them. M. Curley, 11-19 Sixteenth St., Bay City, Mich., May 20, 1906."

SERMONETTES

BY J. MARVIN NICHOLS.

George MacDonald had learned the secret when he said that the pressure of a hand, a kiss, and a caress, will do more to save sometimes than the wisest argument, even rightly understood. Love alone is wisdom, love is power; and, where love seems to fail, it is where self stepped between and dimmed the brilliancy of its rays.

Love is like music—some instruments can run two or three octaves. Some all the keyboard of the sounds from the blackest thunder to the keenest lightning. Just so some hearts are susceptible of melody. Some can sing not only the one endless theme—the song of love—but can run the full gaunt, sounding all the shoals and depths of harmony. Think of those wonders, from the thrill of the nightingale to the rumbling of the thunder; from the din of the trip-hammer to the soft song of the lover as he thrums his mandolin and pours his message into the ear of the maiden-heart. And her dreamy soul responds to the message—and the heart always yields to the music of a spirit that really loves.

I know of a certain boy who matriculated in one of the universities of the South. He was poorly clad. When this boy paid his board, his tuition, and the price of second-hand books, he had just five dollars left. At the end of the fourth year he took his "A. B." degree and the next year won his "A. M." degree. His poor widowed mother sold one of the two plow horses to pay him through the fifth year. But at the end of that year he sat among the graduates, dressed in plain brown linen. But he was the honor graduate and at the head of his class. When a beautiful gold medal was handed to him, he stepped from the rostrum and walked straight to the back of the room, where, right by the door, sat a homely old woman in black. He tied the blue ribbon with great glittering medal around her neck. She buried her face in her old, wrinkled and drawn hands and sobbed just like a child. It seemed the applause would never die away. And now he is a corporation counsel at $6,000 a year. His old mother sits happily in the gloamings of the great beyond. The picture of the noble son hangs on the walls of his alma mater.

The city is gaily decorated and the day is being observed as a general holiday. During the morning the royal family attended a religious service at the Cathedral.

S.S.S. CURES BLOOD POISON

The first symptom of Contagious Blood Poison is usually a little sore or ulcer which does not always excite suspicion because of its insignificance, but as the poison becomes more firmly rooted in the blood, the mouth and throat ulcerate, copper-colored spots appear, a rash breaks out on the body, the hair begins to come out, glands in the neck and groins swell, and often ulcerating sores form on the limbs, hands or face. But this is not all: if the poison is allowed to remain it works down and attacks the bones, causing necrosis or decay, and makes a complete physical wreck of the sufferer. It will not do to tamper with a disease so powerful as Contagious Blood Poison, for every day the virus remains in the blood the trouble is progressing toward a more dangerous stage, and may in the end get beyond the reach of any treatment. There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S., the greatest of all blood purifiers. This remedy attacks the disease in the right way by going down into the blood and forcing out every particle of the poison. It makes the blood pure and rich, strengthens the different parts of the body, tones up the system and cures this humiliating and destructive disorder permanently. The improvement commences as soon as the patient gets under the influence of S. S. S. and continues until every vestige of the poison is driven from the blood, and the sufferer completely restored to health. S. S. S. is not an experiment, it is a success and has cured thousands of cases of Contagious Blood Poison in every stage, and being entirely free from minerals, is a safe as well as certain treatment. If you are suffering with this debasing disease get the poison out of your blood with S. S. S before it does further damage. The Tallahassee True Democrat says Hon. Worth Trammell, late chief clerk in the Attorney-General's office, is also a candidate for railroad commissioner.

What The Sun has previously said regarding The Arcadia News bears repeating: Professor W. B. Hare and S. A. McBride are making it one of the best publications in the State.

Copies of the new pension law and blanks for applications for pensions are now in the hands of the printer, and a supply will be sent to the clerks of the circuit courts as soon as possible.

The St. Petersburg Independent will soon install a linotype machine and publish an afternoon edition. The Independent is a credit to the Pinellas Peninsular, as well as the entire State.

The Fernandina Record remarks that the Republican party of Florida is again happy. It has had its salary raised. Nearly every postmaster was included in the official announcement of this fact sent out from Washington.

Hon. E. L. Wartmann, member of the Legislature from Marion county, has been appointed a member of the Board of Control, vice Dr. Brown, resigned. Mr. Wartmann was largely instrumental in the passage of the famous Buckman bill, and The Sun does not believe that a better man could be found in the State for the position. He is a staunch friend of Gainesville and the University, and the people of this city are delighted at his appointment.

J. O. LaFontisee, editor of The Fernandina Record, who is well posted regarding the people of Cuba and the conditions prevailing on the island, says in the last issue of his paper: "The gang of revolutionists whom the United States went to Cuba to assist, are now howling and threatening to whip Uncle Sam if we don't turn the island over to them. Recent events there indicate the absolute necessity of the United States making an announcement that we propose to hold the island and run its affairs to suit ourselves. The sooner this is done the better, though it will be many years before annexation will be a solution to the problem. Our imperial colony plan appears to be the only method just now."

The Sun does not wish to be understood as apologizing for Governor Broward's action in commanding (as it is claimed) the sheriff of Leon county not to serve the capias from the Manatee county court for the arrest of Claude L'Engle, indicted on the charge of criminal libel. But there is one feature of the case which we have not as yet seen made public, towit: The president of the Senate, as well as several members of that body and members of the House of Representatives, made affidavit that it would seriously interfere with the work of the State, etc., for him to go to Manatee county during the session of the Legislature. The Governor, no doubt, took these affidavits into consideration when he acted as he did, and he will hold them over the heads of some of his critics.

THE EDUCATIONAL CENTER.

It is indeed gratifying that Gainesville has gained the enviable reputation of being the leading educational center of Florida, and that this—the University City—stands among the most important in the South today from an educational standpoint. This is the principal reason for the city's rapid development in every line during the past five years, even before the question of removing the University was ever dreamed of.

Gainesville can boast with impunity of being one of the leading educational centers of the South. With the University of Florida, and one of the best public schools in the country, what wonder is it that the people of this community enjoy the reputation of being an enlightened people? Awake to the importance of education, our people, while they might be divided on some trivial question, have stood together when it came to education. They are now receiving the compensation Whenever reference is made to Gainesville, anywhere, at any time, the first bouquet offered is the exceptional educational advantages of the city, with the result that many families have erected magnificent homes here, in order that the younger element could not take advantage of the excellent schools.

But Gainesville's educational reputation did not begin with the erection of the magnificent $30,000 public school building on the hill, or even with the establishing of the University of Florida here. As a matter of course, these institutions have perpetuated the educational interest, but no one can forget the vast good which was accomplished during the life of East Florida Seminary, which was established many years ago, and which has to its credit today, in proportion to its facilities, probably more men of prominence in public service and in the army, than any institution of like character, not only in the South, but in the United States—mind you, we say in proportion to capacity and attendance. Some of the most efficient officers in the United States army, and some of the brightest men in the various professions today, regardless of section, received their training at this grand old institute, which was operated successfully and with glorious results until the famous Buckman educational bill eliminated it from the map of educational institutions supported in part by the Government.

But the University of Florida is going to prove a fine thing; in fact, it has already, in the season just closed, which was its first year in Gainesville, demonstrated its importance to Gainesville, and now, since an appropriation of $150,000 has been made for additional buildings, we may look for something of extraordinary benefit to this city and section.

UP TO THE COMMISSION.

Live Oak Democrat: A Tennesee negress has put it right up to the Inter-State Commerce Commission to decide the constitutionality of the "Jim Crow" car laws of the South. She got on a train the other day to go from Nashville, Tenn., to Dalton, Ga., and seated herself in the coach for the whites on the ground that as an "interstate passenger," she had a right to ride there and there could be no discrimination against her under the Federal constitution and laws. She was ejected and put into the coach set apart for her own race. She has made a test case of it before the commission and the country in a short time may expect the most interesting decision that body has ever been called on to render. To set aside the separate coach laws of the South, where we are confronted by a condition, not a theory, would be almost to inaugurate revolution in this section, and percipitate a State of riot, blood and crime worse than we have known since the war. It is as much as we can do to stand the race problem when it is diffused all over the South in the open air, but to shut us up with it in a railroad coach where there was no escape from some of its most repulsive features would be intolerable to white people of refinement.

If your circumstances don't fit you, you fit your circumstances.

Seeing, knowing, doing—three fundamentals of success.

The simplest road to knowledge is always the surest.

EXPRESSIONS OF FLORIDA EDITORS.

If the new laws passed by the last Legislature to shut off the illegal sale of liquor and minimize drunkeness are vigorously enforced, there will be very few blind tigers left in Florida, and shipping in liquor by express will show a great falling off also.—Live Oak Democrat.

The legislator who remarked anent the Governor's mansion bill that an additional $25,000 was needed to "build a house to the beautiful piazza which had already cost twenty-five thousand," was guilty of rich humor, whether he meant it as such or not.—Madison New Enterprise.

A good deal of orange bloom is making its appearance on the groves about the city as well as in the larger area that has suffered from the long drought. With a warm summer, plenty of rain, careful cultivation and a liberal application of fertilizer it will yet be easy to harvest a considerable crop of oranges.—Tampa Times.

The failure of the passage of the act introduced by Senator Beard to protect the gopher must have had a stimulating effect upon gopher hunters, as our market was particularly lively with fine specimens of the oldest inhabitants the past week, and futures in this commodity ruled unusually high.—St. Augustine Meteor.

There is one mighty good thing to say about Albert Gilchrist: If he is elected Governor of Florida it will be a perfectly safe bet that he will give a "party" at least once a week during his entire administration. He has a "heart as big as a haystack" and his friends have often felt its beneficient throbs.—Jacksonville Floridian.

It has been proposed that a statue of Hon. Frank Harris, editor of The Ocala Banner, be placed in Florida's niche in the National Hall of Fame. Very good. The Sun can think of no better man. Mr. Harris has spent an average lifetime as editor of his paper, carefully and conscientiously working for the upbuilding of our State. He is a gentleman of parts.—Lakeland Sun.

R. Hudson Burr, the present chairman of the railroad commission, announced his candidacy last week for Governor. You people who have been curious to know who the administration candidate for Governor would be, now have the opportunity to satisfy your curiosity.——Those people who are interested in the capital removal project may rest assured that after the Legislature adjourns two years from now that this question will become a live issue. The only thing that prevented the capital removal question from being put before the people for final settlement this time was from the fact that next year is the big political year.—Fort Myers Breeze.

As a general rule the old veterans do not seem to like that provision of the new pension law which permits the "home guards and reserves" to draw pensions.

CRIME RECORDS BROKEN.

Chicago Has Epidemics of Suicides and Murders.

Chicago, June 10—Chicago's suicide record was broken in May when 55 persons in the city ended their lives. The coroner's office and forecaster Henry F. Cox says the weather is responsible for the increase. The coroner's books show that all records in the vicinity of Cook county were broken in May. There were 199 cases of self-destruction when the office closed Friday night, and the effect of the weather is to be seen in the increasing scale.

The effect on all scores of crime also was manifest. In the first five months of the year there were 75 murders, 22 of which were committed in May.

Dies of Stroke of Apoplexy.

Washington, June 10.—Naval Surgeon Robert A. Marion, U. S. N., retired, died Saturday as a result of a stroke of apoplexy suffered Friday as he was walking along Pennsylvania avenue near the treasury. Dr. Marion was born in West Virginia and was retired from active service in the navy last year, having reached the statutory age of 62 years. Since his retirement he has been by special designation been on duty as a member of the naval medical examining board in this city.

Y. W. C. A. Conference.

Asheville, N. C., June 10—The annual conference of the Young Women's Christian association, in the southern states, opened Friday at the Kenilworth Inn, more than 300 delegates being present. The opening session was called to order by Mrs. Helen Barnes, of New York, leader of the conference, who, in a brief address, outlined the work to be done by the present gathering. The conference will be in session for ten days.

Cotton Poor in Alabama.

Montgomery, Ala., June 10—President Seymour, of the Alabama division of the Cotton Growers' association, gives out a statement in which he shows that the condition of cotton at this time is not much above 50 per cent. The stands are poor, and badly in the grass. Only the best of weather conditions from now on can assure anything like a crop.

4,700 Workmen Dismissed.

Lodz, Russia, June 10.—Owing to the murder of the manager of the Posenanski cotton mills, where strike and serious disturbances occurred some time ago, the shareholders have ordered the dismissal of all 4,700 workmen and the closing of the mills.

$5,000,000 Damage from Cyclone.

Bombay, June 10.—It is estimated that damage to the amount of $3,000,000 to $6,000,000 was caused by the cyclone which swept over Kurrachi on June 6. The lighting system of the city was completely wrecked.

Stolypin Offers Resignation.

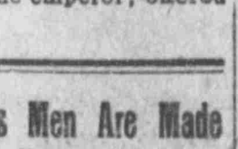
Paris, June 8.—A St. Petersburg dispatch to the Petit Parisienne says Prime Minister Stolypin, after a long conversation with the emperor, offered his resignation.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.



Home of Swamp-Root.

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to *insist* upon such knowledge. So he publishes, broadcast and on each bottle-wrapper, what his medicines are made of and verifies it under oath. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, ofttimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nervine and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. SARDOU'S CALF'S HEAD.

A Dinner the Dramatist Served During the Siege of Paris.

Victorien Sardou, the dramatist, told the following story: "On Christmas day, 1870, that is to say toward the end of the siege, I received leave of absence, having bombarded the Prussians across the river since early morning and repaired to a celebrated restaurant. On the way a stranger accosted me. 'M. Sardou, I have something for you,' indicating the basket he carried, 'provided you will pay enough for it.' 'What is it—a curio?' I asked. 'Much better still; something for Christmas dinner,' he said, and, after a pause, whispered, 'A calf's head.' Observing my incredulity, he uncovered the basket and showed me it—admirable and fragrant, on a bed of parsley. I resolved to have it at any price, paid the then remarkably low price of 60 francs ($12) without grumbling and bade him follow me to the restaurant, where I turned it over to the waiter with instructions to prepare it carefully for the dinner that I was giving.

"In the midst of the dinner, after struggling with an unusually tough horse steak, I announced a surprise. 'What is it?' my guests all exclaimed together. 'A ham? Fried eels? Stuffed turkey?' 'No, something far better than that,' I said, impressively. 'A calf's head!' My words were received with spontaneous cheering, as the smiling waiter put in an appearance and carefully set down a large platter, toward which all eyes were instantly turned. But—will miracles never cease?—instead of the coveted calf's head there was a thick and greasy yellow liquid!

"'By the Lord Henry!' I cried, turning furiously on the waiter. 'My head! My head!' 'Your head,' he answered submissively, 'there it is, monsieur.' 'What's that?' 'It has melted, monsieur, melted down to that.' It turned out that the head was made of molded gelatin and so carefully imitated that the manufacturer, I have since heard, was able to dispose of thirty among gentry as naive as myself."—Chicago News.

Coming and Going.

"What kick have you against married life?"

"Well, if I don't keep my wife dressed in the height of fashion I have trouble with her, and if I do keep her dressed in the height of fashion I have trouble with her dressmaker."—Houston Post.

The One Thing Left.

"But what will there be left for you to do after your toiling and scheming and self denial have brought you the millions you covet?"

"What'll there be left? Gosh, I can go to New York and spend 'em, can't I?"—Chicago Record-Herald.

It Hurt Him.

Tommy—Did the fowl hurt you, Mr. Squires? Mr. Squires—What d'you mean, my dear? What fowl? Tommy—Well, I wanted to know if it hurt, 'cause mummy said you had been henpecked for twenty years.—Strand Magazine.

A Substitute.

"Anna, you wished to buy a dictionary?"

"I have married a professor instead."—Meggendorfer Blatter.

THE POCKET SAVINGS BANK EPIDEMIC RAGES FIERCELY ....IN GAINESVILLE....

Beneficent epidemics are scarce, but such a one has struck Gainesville, and people of every station and occupation have the fever.

It is most interesting and instructive to study the constantly changing line of applicants for Pocket Banks as it files through The Sun's business office. There is the mother, bringing her daughter with her and securing a bank for the girl, another for herself, and inquiring anxiously whether she may have another for the boy who is at work. She receives it promptly.

Boys come—some are steady, serious-faced chaps who have begun to think on their own account, and who ask questions about the operation of the scheme which show the results of rubbing up against the world.

Then the High School girls and boys, gay and active, while the workman and business man "slip in" during the noon hour to get a bank for the boy or girl at home, after asking one or two leading questions to make sure there is no joke about the 25 cents.

.....THE PLAN IN OUTLINE.....

A HANDSOME NICKEL POCKET SAVINGS BANK and an order on

PHIFER BROS., BANKERS

Good for an additional 25 cents when a deposit of one dollar or more in cash is made, will be given to everyone who avail themselves of this opportunity. Make an investigation and you will never regret it.

How People Lose Their Money.

By concealing it about their person; by stowing it away in mugs, jugs and jars; by sewing it up in skirts and ticks; by tucking it under the couches and carpets, in cupboards and bureau drawers; these are some of the ways by which people lose their money, and sometimes their lives.

How People Save Their Money.

By depositing it in a good, reliable bank. Confident that this bank fully meets the public's needs, we tender its services to all who believe in keeping on the safe side.
